Title:

METHOD FOR FORMING CAPACITOR OF SEMICONDUCTOR

REQUEST FOR CORRECTED NOTICE OF ALLOWANCE AND FILING RECEIPT

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

Upon reviewing the Notice of Allowance and Official Filing Receipt, Applicants discovered several issues requiring correction. A corrected Notice of Allowance and Filing Receipt is solicited as set forth below.

First, the inventor address information is incorrect. Inventor Dong Su Park and inventor Tae Hyeok Lees' city of residence is Gyeonggi-do, not Icheon-si. A copy of the Filing Receipt is returned herewith together with a copy of the Declaration and Power of Attorney. A corrected Filing Receipt is solicited. Kindly forward the corrected Filing Receipt to the undersigned attorney of record.

Second, Applicants have not received any mailing indicating the Information Disclosure Statement (IDS) of September 24, 2004 has been considered by the Examiner. Applicants respectfully request that an initialed copy of Form PTO/SB/08A be returned in accordance with MPEP §609.

Finally, on the summary page of the Notice of Allowance, box 4 and box 4(a) are checked, acknowledging Applicants' claim for foreign priority. However, box 4(a)(1) has not been checked, acknowledging receipt of the certified copies of the priority documents. This documentation was filed on November 6, 2003. Applicants respectfully request a corrected Notice of Allowance with box 4(a)(1) checked.

As the Issue Fee payment is due on January 6, 2005, Applicants submit herewith a fee transmittal along with the requisite fees. Applicants respectfully request that the above issues be corrected prior to issuance of the pending application.

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
